

Midnight Society

Curtis Atchison is the talent behind the alter ego known as **Midnight Society**. His name & moniker can be found on over 200 different releases across more than thirty different record labels including **Stealth Records, Stereo Productions, Younan Music, Twisted America Records, and Nervous Records**. Curtis is currently a featured artist and spokesperson for **ACID Pro 8** by **MAGIX Software**. He is also collaborating with **DJ/Producer Manny Ward** as part of the production duo **Retrotech**, on upcoming projects for **Nona Hendryx, Black Stereo Faith** and **Lenny Kravitz**.

As an international DJ, Curtis has headlined parties during Carnival & LGBTQ Pride events in Brazil and Mexico City, plus the **Black & Blue** and **Divers/Cité** festivals in Montreal. He's also played several venues in Portugal, Italy, and made a special appearance at the Linga Bar in Siem Riep, Cambodia. His **Drum Nation** events have been featured during **Miami Music Week**, the **Winter Music Conference**, and in the Netherlands for the **Amsterdam Dance Event**. Closer to home, Curtis is the founder and twelve year resident DJ of the **Mainframe** party in New York City.

His record label, **SoundGroove Records**, has been in operation since 2006 and features more than 100 different releases from artists all over the world. Several of the songs have been licensed by **MTV Networks** and **E! Entertainment Television** for use on programs such as **Jersey Shore, The Pauly D Project** and during red carpet interview segments for the **Golden Globes** and the **Oscars**.

Curtis is a DJ/Producer (27 years), a graphic designer (27 years), a web designer (23 years), an audio engineer and remixer (18 years), a digital record label owner (12 years), an occasional videographer (7 years), a photographer (3 years), a multimedia specialist (thanks, **Lesley University**), a classic video game freak (for life), a nightlife enthusiast (forever), a computer nerd and a hopeless anime addict (ditto), but not necessarily in that order. He also loves rollercoasters and occasionally likes to cook. It's his belief that good music and good food will save a person's soul and the world. Curtis also believes it's impossible to shake your booty and frown at the same time, but that may require more research and exploration of the world to know for certain.
